•3 Horspower Inverter<br>

•Cool and Heat<br>

•Ionizer Technology<br>

•JetCool and JetHeat Mode<br>

### Product Benefits & Features

#### **Inverterr ++ motor**

Kills 99% of bacteria, and removes odour with minimal maintenance or cleaning of the filter.

#### **Air Flow Memory**

Air conditioner remembers the last horizontal blade position. The user does not have to fix the same position every time.

#### **Jet Cool & Jet Heat**

Just press the button «Turbo» on the remote controller. The air conditioner will work in turbo mode to get the fast cooling or heating.
