

-
- 1.5 Horspower Inverter

 - Cool and Heat

 - Ionizer Technology

 - JetCool and JetHeat Mode

Product Benefits & Features

Inverterr ++ motor

Kills 99% of bacteria, and removes odour with minimal maintenance or cleaning of the filter.

Jet Cool & Jet Heat

Just press the button «Turbo» on the remote controller. The air conditioner will work in turbo mode to get the fast cooling or heating.

Air Flow Memory

Air conditioner remembers the last horizontal blade position. The user does not have to fix the same position every time.
